Grandview website.

We were disappointed to cancel the Grandview Artisan Market due to the weather, but we're already looking ahead to next month and can't wait to see everyone again at our new location at City Hall.

In the meantime, take a look at the upcoming Grandview Artisan Market dates and start making plans with us. We have a great season ahead and look forward to seeing you there!

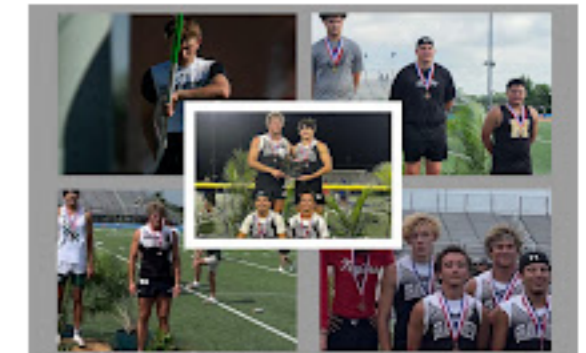

We're excited to announce the opening of the City Splash Pad! It will open on May 13 for a special GVISD student park visit as a preview.

Following that, the splash pad will officially open for the season on May 21, 2026. We look forward to welcoming families all summer long!

GRANDVIEW ISD It's A Great Day To Be A Zebra News Corner

GET INVOLVED

City Council meetings play a vital role in local government by promoting transparency, accountability, and community engagement. These meetings give residents the opportunity to stay informed, voice their opinions, and participate in decisions that directly impact daily life in our city.

Under state law, the City Council is only authorized to formally discuss and take action on posted agenda items during a properly called City Council meeting. This means council meetings are the official and only time residents can hear the full discussion, deliberation, and decisions of the City Council.

Council meetings commonly include discussion on:

- Property development
- Zoning changes and land use regulations
- Capital Improvement Plans (CIP)
- City budgets and financial planning
- Infrastructure and public works projects
- Public safety and community services

Residents can learn about upcoming projects, proposed ordinances, and long-term planning efforts that shape the future of the community. Whether attending in person or following along with the minutes and updates, staying engaged with City Council meetings is one of the most direct ways to be involved in the future of your city.
