\* The FCC issued a Declaratory Ruling on September 27, 2018, in WT Docket Nos. 17-79 and 17- 84 (FCC 18-133, 33 FCC Rc'd 9088) ("FCC Ruling") in which the FCC seeks to limit attachment, franchise and/or other small cell ROW access fees to the "reasonable approximation" of a local jurisdiction's cost for processing applications and managing deployment in the right-of-way, but then also establishes a "safe harbor" annual fee of \$270/site. The City disputes the FCC's authority to establish such fee limitations and notes several jurisdictions have filed legal challenges to the FCC Ruling. Given this status, until and unless a court of competent jurisdiction issues a final, non-appealable order vacating the FCC Ruling or its fee limitations, a provider may opt to pay the City only \$270/site towards the Annual Fees provided it first agrees in writing that, in the event the FCC Ruling or its fee limitations are vacated without any further appeal, the provider shall pay any outstanding balance for said Annual Fees within 60 days thereof.
