Oil and Gas Notice Update

Staff has not received any notices this past month from the ECMC as of July 16, 2025.

Adams County Oil and Gas Updates

- The combined Conner/Wakeman virtual neighborhood meeting was held on Thursday, July 11th. The meeting notice was sent to residents within one-mile of the facilities and is a part of the AdCO oil and gas permit process. These pads are still awaiting state drilling permit approvals and have not met all AdCO approvals for conditions precedent, such as an air quality plan approval, traffic impact fee payment, and final engineering docs.
- AdCO issued a public comment letter to the ECMC supporting a petition filed by WildEarth Guardians et. al requesting that the ECMC initiate rulemaking to incorporate the Social Cost of Carbon (SCC) into cumulative impact analyses for oil and gas development projects. Other local governments are considering sending in letters of support of this petition.
