## **X. New Business**

- Commissioner Rogers stated that during the football game on Friday he noticed that on Mound and Church Streets the curb was not marked yellow and a truck was parked all they way at the stop sign. It was also a problem on Rankin and Jamestown. President Stucky asked if we have had any complaints this time on the street sweeper. Commissioner Rogers said they were in town today. We need to decide if we would like to have them continue to run the sweeper or should we go back running our sweeper. President Stucky also asked about the update on windows 10 and if we are ready for it. Jessica will contact our IT guy for an update on what we need to do. President Stucky would like to have the guys get the debris laying in the creek out and get rid of it. Chief then discussed the meeting they had with the Township about the fire inspector. The township was interested in thinking about it as well as splitting the cost. President Stucky would also like to find a way to help with the Fire and EMS coverage for the Village. He would like to get a committee together to help with a plan. He feels that it would be good for the Village to have 24/7 coverage for emergencies.

## **XI. Old Business**

- Commissioner Rogers asked if the hydrant on Church Street is repaired and Trecia said that it still needs a watch valve installed but it works is just leaks. She is getting it on the books for next year. President Stucky asked how they decided to close the splash pad. Trecia said it was decided with the temperature at night staying consistently in the 40s and with school in session. They are just concerned because this weekend it is to be in the 90s. President Stucky thinks we should pick a day and close it on that date every year. Commissioner Rogers asked if we found Highmillers address and if we sent a letter. Trecia believes she did but she will check.
