Mayor Kelly Routh called the meeting to order at 6:30 pm.

Motion to approve the agenda, minutes from the council meeting on August 4th, and the accounts payable was made by Kyle, seconded by Matt; motion carried.

Public Input:

-Alford Johnson and Darren Wiegand were following up about the city helping with the water issues they had with the hard rain in July. Per city's insurance company, LMC, city is not going to help out. This is due to the fact that the city's equipment did not fail. When anyone gets a lot of rain in a short amount of time, all city's pumps are unable to keep up. It's unfortunate that a few of our residents had issues with the heavy rain in July.

-Discussed having someone to come in and smoke test sections of town to make sure residents sump pumps are not connected to the sewer lines. Andy will ask WPCA to come.

Fire Dept.:

-No billable calls

- Fire Department needs to have a Licensed practicing doctor to serve over the First Responders. The department does have someone in place.

City Maintenance:

-Asking to replace the playground boarder by the old school as the wood boarder that is there is deteriorating. Project will wait till Spring of 2026.

- Concession stand should get work back middle of September.

City Clerk Updates:

-The proposed budget was accepted and the current levy funds the City budget very comfortably. A proposal of a 2.5% increase in the levy for 2026 was made by Jodie seconded by Matt; motion carried. City accepted the proposed budget.
